AutoLog[®] RTU's in India

FF-Automation is very active nowadays in India.:

"FF-Automation are delivering RTU's and automation products to various customers in India for sub station monitoring and control as well as for safety and security of banks, industrial premises and the government sectors. These installations are working for last more than two years and the customers are very satisfied with the functioning of RTU's and AutoLog[®] Automation products. These products are available from our local partner "Control & Solutions" who can give engineering & commissioning support to local Autolog[®] customers" says Mr Jukka Fredriksson from FF-Automation.

FF-Automation representative in India.
