AutoLog[®] RTU's in ADIPEC 2008

ADIPEC 2008 (Abu Dhabi, U.A.E.)

<http://www.adipec.com/>

FF-Automation was joining "Adipec 2008" exhibition during 03.-06 November 2008 together with "ABDULLA NASSER" <http://www.ana-uae.com/profile.htm>

"The exhibition was showing again its importance in Gulf region as the biggest Oil & Gas show on the area. The total Oil and Gas show – statement is correct! " Says Jukka Fredriksson Managing Director of FF-Automation.

This year the exhibition doubled its size with 1,500 exhibiting companies and 18 national pavilions; and this expansion is reflected in the onsite industry personnel figure, which was nearly 39,000 from 89 different countries!

FF-Automation was joining third time to Adipec (Since 2004, 2006) and now 2008. "We come again 2010" says Mr Fredriksson and gives strong statement on behalf Adipec – show. "You meet all key players what is coming for equipment suppliers as well as clients. It is important to show your attendance in Adipec".

Exhibition was success and many visitors from oil and gas corporations visited in ABDULLA NASSER's stand. Mr Mohammed EI-Fout, General Manager of Abdulla Nasser Dardas was also happy for show and thinking to come next time with Bigger stand for this very important event.

FF-Automation & Products

AutoLog® products

FF-Automation has more than 30 years of expertise in designing and manufacturing advanced automation products. Our AutoLog® product family includes wide range of RTUs (Remote terminal units).
